

CDX-HW-HO(-C) Series

Horizontal Recessed
Ceiling Fan Coil
Heating Only
Up to 51,700 BTUH HW Heat

CDX-HW-HO Fan Coil
(without enclosure - CDX-HW shown)

Optional Access Panel
(non-louvered shown)

The space-saving **CDX-HW-HO** series fan coil is only 10" high (11" with enclosure), thus allowing it to recess in a ceiling. Recessed ceiling fan coils save valuable floor space and eliminate costly "equipment" closets.

All **CDX-HW-HO** fan coils include a 120/24V transformer and are completely prewired.

(-C) model: for **CDX-HW-HO** fan coils installed within an enclosure, add "-C" after **CDX-HW-HO**. For instance, ordering model **18CDX-HW-HO-C** will include a **CDX-HW-HO** fan coil factory installed in a # **9ECDX01** enclosure and your choice of either a # **966** or **966-1** panel.

Standard Features:

- **Factory installed service switch**
- Single point power connection
- HW coil
- 120V motor, 24V controls
- Highly efficient copper tube/aluminum fin heating coil

Optional Accessories:

- Attractive off-white return air / access panel with captive screws (panels can be field painted)
- Fully insulated enclosure with matching ceiling panel (enclosure can be pre-installed). (Also allows for ducted return air).

Optional Insulated Enclosure
